

Description

This KC logo presents a modern and abstract design with strong geometric balance and clever use of negative space. The clean lines and sharp edges convey professionalism and precision, while the curved shapes create a sense of depth and motion — subtly resembling a camera lens or sound wave, making it ideal for photography or creative fields. Its minimal black-and-white style adds both simplicity and boldness to the overall identity.

Assignment

LOGO DESIGN

Course: Interactive Communication Design 1

Program: MFA Graphic Design

Instructor: Sir Ajmal

Author: Komal Rasheed
